

CASHNet ePayment

What do I owe now and how do I pay?

Provide your students and parents with the ability to view current balances and make a confirmed, documented payment at any time over the web or touchtone telephone. Payments are posted real-time to your campus ERP.

Multiple ePayment options

- All electronic tender types:
 - Credit cards, ACH, campus and debit cards
- All payment channels:
 - Web, Touchtone (IVR)
- All payment types:
 - Process installment or recurring payments using any payment tender type
 - Process tuition fees, miscellaneous charges, and any other type of incidental payments
 - Payments can be made to specific accounts or against a total balance

Easy ePayment Access

- Account information is in a easy-to-use, easy-to-access format
- Single sign-on technologies enable rapid access to account information, less effort for students, and timely payments for the school
- Parents or third-parties have FERPA compliant access to account balance information and a wide variety of payment options. Schools benefit from reduced workload in processing and expediting payments.

Secure end-to-end solution

- The solution is independently certified at the highest level of security (Level 1 PCI DSS) with full FERPA, GLBA, and NACHA compliance
- Secure transactions over the web through technologies familiar to the campus
- Automatic and real-time payment authorization
- Online, all-the-time access to payment history
- Personal profile management for students and third parties to automate future payments
- Seamless integration to your existing student system

“Thank you all for your great work in bringing up ePayment and e-check. As you know, these payment options are an important part of the University's resource planning and overall budget savings. Everything went very smoothly thanks to all your efforts! Better than expected!!!”

Business Benefits

Maximum Financial Return

CASHNet's "Software as a Service" model enables you to reliably forecast campus commerce costs while having continual access to the latest technological advancements without further need for additional software or hardware investments. Our hosted architecture provides broader reach, greater availability, and lower cost than any alternative strategy today, making CASHNet effective for any campus, regardless of size and mission.

State of the Art Security

Protect your customers' financial information and personal privacy and your institution's assets and reputation with need-based data encryption, security certification and compliance, and access control. CASHNet's state-of-the-art data center provides the architecture and processes that assure an unsurpassed level of safety and availability for every element of commerce on your campus.

Integration

CASHNet's strategic alliances and two decades of interface expertise guarantees you seamless, end-to-end integration with your institution's administrative and financial systems, whether Jenzabar, Peoplesoft, Banner, Datatel or legacy. Furthermore, we utilize our growing catalogue of tactical vendor alliances for specialized systems such as housing, dining, parking, library, events and health services to make sure that a consistent commerce solution is available at every corner of the campus.

Deployment, Training and Support

Deployment is fast and painless. Initial and recurrent training options are aligned with your institution's policies and procedures and range from web-based to on-campus classes using real-life, hands-on exercises for users and administrators. Operational support is provided by our team of full-time, multi-lingual, Help Desk professionals.
