

Business Benefits

While you focus on the key academic, research and community service missions of your institution, CASHNet ... any payment, anytime, anywhere® protects the assets, privacy and reputation of your institution and its customers as they deal with the "business" of their educations.

Maximum Financial Return

CASHNet's "Software as a Service" model enables you to reliably forecast campus commerce costs while having continual access to the latest technological advancements without further need for additional software or hardware investments. Our hosted architecture provides broader reach, greater availability, and lower cost than any alternative strategy today, making CASHNet effective for any campus, regardless of size and mission.

State of the Art Security

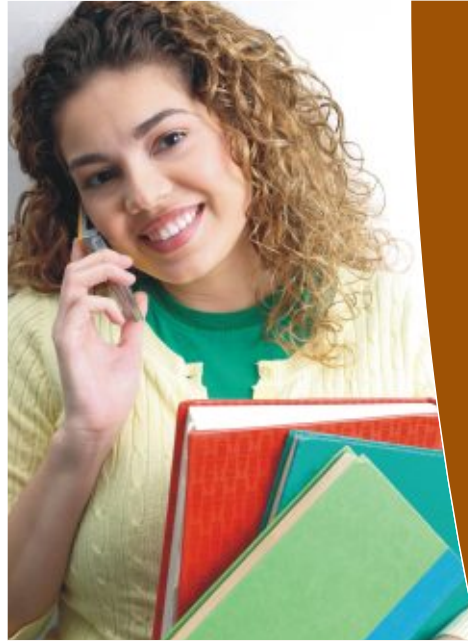

Protect your customers' financial information and personal privacy and your institution's assets and reputation with need-based data encryption, security certification and compliance, and access control. CASHNet's state-of-the-art data center provides the architecture and processes that assure an unsurpassed level of safety and availability for every element of commerce on your campus.

Integration

CASHNet's strategic alliances and two decades of interface expertise guarantees you seamless, end-to-end integration with your institution's administrative and financial systems, whether Jenzabar, Peoplesoft, Banner, Datatel or legacy. Furthermore, we utilize our growing catalogue of tactical vendor alliances for specialized systems such as housing, dining, parking, library, events and health services to make sure that a consistent commerce solution is available at every corner of the campus.

Deployment, Training and Support

Deployment is fast and painless. Initial and recurrent training options are aligned with your institution's policies and procedures and range from web-based to on-campus classes using real-life, hands-on exercises for users and administrators. Operational support is provided by our team of full-time, multi-lingual, Help Desk professionals.

A Relationship not a Commodity

CASHNet

Did you know you can streamline and secure the “business” of your campus with a solution specifically designed to support the enrollment and advancement missions of your institution, and do it within the realities of your budget?

CASHNet eBill, ePayment, MyPaymentPlan, eRefund, eMarket and Cashiering integrate real time, “any payment, anytime, anywhere” functionality with your present financial and administrative systems. In just a few weeks, you can be serving your students, parents, alumni, and staff with the safety, convenience and professionalism consistent with your institution’s reputation.

Now these applications can be delivered to your campus using contemporary Web Services technologies, so that they arrive economically and dependably, without additional investments in hardware, software, or security infrastructure.

We are different than other providers. We recognize the value of your institution’s unique characteristics and support them by delivering “a relationship, not a commodity” to your campus community. This means that every user on your campus has a champion committed to assist them when they have a question or a problem.

CASHNet Suite of Products

CASHNet applications are intuitive and easy to use. They provide each user with precisely the capabilities needed to meet the task at hand: reviewing a bill or account balance, making a payment, enrolling in an installment plan, receiving a refund, or making a donation to your alumni building fund.

With CASHNet, universities have a 24x7 service option to stay connected anytime, anywhere. Taking communication to the next level, CASHNet’s eNotification enhances customer services by providing students, parents and authorized payers with a secure, centralized and configurable mechanism to receive emails and SMS notifications.

CASHNet eBill

What did I buy and when is it due?

Present your institution’s bills online, eliminating the cost of postage, paper and handling. Students and parents can view both current and prior bills at their convenience and make payments (or make payment arrangements) online 24 x 7.

Capabilities include:

- Single or multiple bills, 1098-T, and promissory notes
- Integrated controls for publishing bills and tracking customer views
- Single sign-on compatibility with existing campus portals
- Present both static and dynamic bills

CASHNet ePayment

What do I owe now and how do I pay?

Provide your students and parents with the ability to view current balances and make confirmed, documented payments at any time over the web or touchtone telephone.

Capabilities include:

- All electronic tenders: Credit/Debit Cards, eChecks, Campus Cards, ATM Cards
- Payment for both billed and miscellaneous charges
- Optional recurring and third-party payments
- The security of Level 1 PCI certification, with full FERPA and GLBA compliance

CASHNet MyPaymentPlan

What if I can't pay it all today?

Allow students and parents to electronically enroll in one or more payment plans designed and tailored for your institution. Plans are automatically generated according to your specific business rules and eligibility parameters.

Capabilities include:

- Service specific plans, such as tuition, housing, dining, parking, etc.
- Management of multiple and concurrent plans
- Accurate receivable tracking with real-time coordination with Student Accounts
- Tailored views so students “see” only those plans for which they are eligible
- Provision for full participation by parents or other approved payers
- An option to request or require automatically recurring payments
- Bills, reminders and receipts automatically emailed and/or messaged to cell phones
- Full integration with all CASHNet ePayment and Cashiering payment options

CASHNet Suite of Products

CASHNet eRefund

What if I overpay?

Reduce the need for long lines, high costs, and the risk of lost and returned refund checks. In just minutes, students can enroll online to receive any general or financial aid refund as a direct deposit into their designated checking or savings accounts.

Capabilities include:

- Verified status and bank information at time of enrollment
- Multiple refund types and refund cycles to match your institution’s policies
- Full exception management tools, including reporting, returns, and reprocessing
- Optional prenote processing for additional verification
- Automatic disbursement notification by email and/or cell phone messages

CASHNet eMarket

How can I feel secure shopping at your institution’s online storefronts?

Give your departments a secure, yet easy-to-use tool for creating their own web storefronts without having to utilize valuable IT resources. Customizable and fully PCI certified, this is a powerful solution for creating, controlling and managing the growing number of web storefronts appearing on your campus.

Capabilities include:

- A “Storefront Wizard” and standard templates for speed and simplicity
- Centralized business rules to insure adherence with campus policies
- Product catalogues for item control, inventory, shipping and tax tracking
- Familiar shopping cart motif to simplify training and support efforts
- Interfaces to ancillary systems for development, alumni, event ticketing etc.
- Departmental reporting and integration with financial reporting systems

CASHNet Cashiering

How do I make “in-person” payments quickly and easily?

When your customers or departments need to process in-person payments, CASHNet Cashiering streamlines that interaction into a “one step, one stop” transaction that keeps the line moving and your customers smiling.

Capabilities include:

- Secure, web-based cashiering deployable anywhere on campus
- On-the-fly configurations for both walk-in and batch payment processing
- Web-based Departmental Deposit entry and receipting
- Online inquiry and reporting of any payment made anywhere on campus
- Check conversion and imaging functionality

“CASHNet’s Professional Services during the installation phase was highly efficient and required minimal resources from our IT team.”

CHRIS BURNLEY
VP — FINANCE AND ADMIN,
RANDOLPH COLLEGE

“CASHNet went beyond what would be expected of any vendor to ensure our satisfaction with the CASHNet product... They know what they are talking about.”

RICHARD WHITE
UNIVERSITY TREASURER
