

## CASHNet MyPaymentPlan

### What if I can't pay it all today?

Allow students and parents to electronically enroll in one or more payment plans designed and tailored for your institution. Plans are automatically generated according to your specific business rules and eligibility parameters.

### Plan Administration

- Flexibility to define, create and manage multiple, concurrent plans
  - Create specific plans, such as tuition, parking, meals, housing etc.
  - General installment plans covering customer designated amounts
  - Plans can be administered by the school or CASHNet
- Plans are customer specific so students "see" only those plans for which they are eligible
- Option to require students prior balances to be paid before the student can enroll in another plan
- Administrative access to status and history of each student account
- Option for recalculation of plan amounts due after receipt of financial aid or changes in student's enrollment status

### Students

- Enroll online and agree to contract requirements with an electronic signature
- Bills, reminders, and receipts automatically emailed and/or messaged to cell phones
- Option to establish automatic payments
- Provision for full participation by parents or other approved payers

### Institutions

- Real-time integration with your Student Information System for automated payment posting and accurate receivable tracking
- Full integration with all CASHNet ePayment and Cashiering payment options
- Enable credit card, ACH, debit and campus card payments anytime, anywhere
- Immediate access to collected funds

*"We are so pleased with our CASHNet system. From the very beginning when we started talking to CASHNet, through the implementation and continuing up to now we have been happy with CASHNet. We are satisfied with Customer Support, with the product and with the process."*

## Business Benefits

### Maximum Financial Return

CASHNet's "Software as a Service" model enables you to reliably forecast campus commerce costs while having continual access to the latest technological advancements without further need for additional software or hardware investments. Our hosted architecture provides broader reach, greater availability, and lower cost than any alternative strategy today, making CASHNet effective for any campus, regardless of size and mission.

### State of the Art Security

Protect your customers' financial information and personal privacy and your institution's assets and reputation with need-based data encryption, security certification and compliance, and access control. CASHNet's state-of-the-art data center provides the architecture and processes that assure an unsurpassed level of safety and availability for every element of commerce on your campus.

### Integration

CASHNet's strategic alliances and two decades of interface expertise guarantees you seamless, end-to-end integration with your institution's administrative and financial systems, whether Jenzabar, Peoplesoft, Banner, Datatel or legacy. Furthermore, we utilize our growing catalogue of tactical vendor alliances for specialized systems such as housing, dining, parking, library, events and health services to make sure that a consistent commerce solution is available at every corner of the campus.

### Deployment, Training and Support

Deployment is fast and painless. Initial and recurrent training options are aligned with your institution's policies and procedures and range from web-based to on-campus classes using real-life, hands-on exercises for users and administrators. Operational support is provided by our team of full-time, multi-lingual, Help Desk professionals.
